

DANNY'S FARM HOSTS THE DEPARTMENT OF CHILDREN & FAMILY SERVICES FOR A PHOTO SHOOT

The Department of Children & Family Services recently used Danny's Farm for a photo shoot for children in need of adoptive homes. Photographers donate their time to help place special needs kids with adoptive families. Please meet Ashley and Unis enjoying the petting zoo.

This is Ashley and Unis at Danny's Farm. They instantly took to the animals, especially the kittens. Ashley carries herself with charisma and grace. She watches over Unis with careful eyes and shows no hesitation in her role as the "Big Sister". Ashley's smile and laugh is contagious and sincere. She is fun-loving, confident and oh, so photogenic!

Unis was a little shy at first and often gravitated toward her sister when she was unsure about the situation. However, she warmed up quickly and her tender and spunky personality captured our hearts. Unis has a sweet way about her, and there is no doubt that once you unlock her heart it's nothing but treasures inside.

Ashley and Unis are a dynamic duo that is best together! Their love for each other is infectious and will penetrate the hearts of their future family in an instant.

"What a great place you have created for kids. They all loved it and had many smiles to share throughout the day! Thanks for sharing a piece of your happiness; it was much appreciated by all!"

"It was definitely a very therapeutic experience for the kids. We had a few kids who came stating they did not like animals and by the end of the day were in LOVE with your sweet kittens. It is a magical place for sure"

Stephanie Clancy, CSA I
Heart Gallery Program Manager
Department of Children and Family Services

Lucy Thompson completed her Gold Award project at Danny's Farm - she's pictured here (front center) with Girl Scouts Troop 810, as they delivered numerous crafts, much needed supplies, and built cubbies for the kids served at Danny's Farm. Thank you Lucy! Go for the GOLD!
